REF: Docket #98N-1038. "Irradiation in the production, processing and handling of food"

Just one question

Would you like to be x-ray with being notified? If you eat foods that have been, would there be a difference?.

I am glad that the FDA is proceeding with this type of technology and I appreciate your efforts but please don't remove the requirement of notification of medication. For my childrens sake

A handwritten signature in black ink, appearing to read "Paul D. ...", with a long horizontal line extending from the end of the signature.
